Minnesota law requires children enrolled in school to be immunized against certain diseases or file a legal medical or conscientious exemption.

Parent: Enter the MONTH, DAY, and YEAR for all vaccines your child received, MED for vaccines that are medically contraindicated, or CO for vaccines that are conscientiously opposed. Sign appropriate signature boxes on reverse.

MED: Medical contraindication to immunization, history of disease, or laboratory evidence of immunity.

CO: Immunizations are contrary to parent or guardian's conscientiously held beliefs.

School Personnel: Be sure to initial and date any new information that you add to this form after the parent/guardian submits it. Also, record combination vaccines (e.g., DTaP+HepB+IPV, Hib+HepB) in each applicable space.

Additional exemptions:

- **Children less than 7 years of age:** The 5th dose of DTaP/DTP/DT (similarly, the 4th dose of polio vaccine) is not necessary if the 4th DTaP/DTP/DT (3rd dose of polio) was administered after the 4th birthday.
- **Children 7 years of age and older:** A history of 3 doses of DTaP/DTP/DT/Td/Tdap and 3 doses of polio vaccine meets the minimum requirements of the law.
- **Students in grades 7-12:** A Td or Tdap booster at age 11 years or later is not required for students in grades 7-12 whose most recent Td was given after their 7th birthday but before their 11th birthday. Instead, it will be required 10 years after the date of the most recent dose.
- **Students 11-15 years of age:** A 3rd dose of hepatitis B vaccine is not required for students who provide documentation of the alternative 2-dose schedule.
- **Students 10 years or older:** May receive Tdap to fulfill the Td requirement for students in grades 7-12.
- **Students 18 years of age or older:** Do not need polio vaccine.
